

LSEA Members,

I wanted to follow up on the insurance numbers from the WW yesterday. Clarity came from Steve after the newsletter was sent; I would like to share with you the corrected numbers on the Choices 2 plan, as two numbers were inverted in what was shared yesterday. Also, the numbers for ABC 1 and ABC2 are now included.

You will see the lower overall deduction total for your policy coverage. You will then notice zeros for all "non-health" portions. Finally you will see a negative number referred to as an "offset". This is the money being credited back monthly that has been "prepaid" by you since June for health and non-health. It is being spread over the final seven months to reduce the monthly premium cost from the overall total for your package.

If you are a part time employee, these amounts do not impact your insurance.

The amounts shown will appear under the "deduction" area of the pay stub.

Choices 2 Plans:

CH2 SINGLE 142.55	CH2 2P 318.83
DENTAL SNG .00	DENTAL 2P .00
